

Comfort South
HEATING AND COOLING

Keeping Families Comfortable Since 2000

Accessories

Comfort South offers additional products and services to help you get those most from our world-class heating and air solutions. These extra features represent a small investment, yet greatly enhance your control and usability.

- **NEXIA Smart Home Systems** help you connect to your home from an all-in-one phone application
- Next generation **thermostats** which you program and customize to manage your home in a cost-efficient, convenient way
- Integrated **carbon monoxide detectors** giving your family extra protection and peace of mind
- Air conditioner **float switches** protect against AC system condensation overflows
- **Air cleaners** provide extra filtration for the air you breathe helping to reduce pollution and allergens in your home

About Our Company

Kenneth and Phyllis Cagle are the proud owners of Comfort South Heating and Cooling. We serve Montgomery, Moore, Randolph and Chatham counties with outstanding, reliable heating and air conditioning products, sold and serviced by the professional people that treat you like family. Comfort South goes the extra distance to protect you and your home while work is underway. Your satisfaction is always guaranteed. Our system installations are designed to exceed North Carolina code requirements, providing the safe and comfortable heating and cooling your family deserves!
